TECHNICAL SKILLS

Machine Learning: Proficient with Numpy,Pandas,Matplotlib,Seaborn,Scikit Learn

Deep Learning: Proficient with Pytorch and training deep neural networks from scratch

Web Development: Svelte, FASTAPI, HTML, CSS, Javascript,Typescript, Node.js, Express

SOFT SKILLS

- ▶ Leadership
- ▶ Communication
- ▶ Teamwork

ABOUT ME

My name is Muhammad Ammar Khalid and I am a 5th semester BS Computer Science student at the Comsats University Islamabad, Lahore Campus. I have been programming in **C/C++**, **Python**, **Java** and **Javascript** and have made some good projects. My specialization is in Machine Learning and I love to work with deep neural networks.

PROJECTS

Cricket Match win predictor

- Predicts the winning chances of both the teams playing
- Uses Extreme Gradient Boosting algorithm for this classification task
- Gives 70% accuracy on real world data

HeatGuard Agent

- Predicts the weather conditions and especially heat conditions in the different areas of the United States
- Uses the FortyGuard API key for fetching the temperature data

scratch

Web Development: Svelte, FASTAPI, HTML, CSS, Javascript, Typescript, Node.js, Express

SOFT SKILLS

- ▶ Leadership
- ▶ Communication
- ▶ Teamwork
- ▶ Pressure handling

LANGUAGES

- ▶ English
- ▶ Urdu
- ▶ Punjabi

HeatGuard Agent

- Predicts the weather conditions and especially heat conditions in the different areas of the United States
- Uses the FortyGuard API key for fetching the temperature data
- Sends the notifications on Slack channel about weather conditions

Operating System Simulator

- Simulates the behaviour of a real operating system
- Written in C11 for best performance
- Implements the OS processes, Memory Management and some other behaviours
