Minimalist

Completion report

Web Technologies | Assignment 2 | 19 October 2026

Reference: Minimalist

https://beminimalist.co/

Delivered pages

index.html: shared navigation, responsive banner, eight product cards with images, names, prices, sizes, and static Add to Cart buttons.

product.html: large responsive cleanser image, description, price, native quantity input, static Add to Cart button, expandable information, and the shared footer.

Responsive verification

Viewport	Home grid	Product layout	Overflow
375 px	2 columns	Stacked	None
768 px	3 columns	Side by side	None
1440 px	4 columns	Side by side	None

Checks passed

All six page/viewport checks passed. Images and local fonts loaded; product buttons align within each row; no horizontal overflow; zero scripts on either page.

The mobile menu and information sections use native HTML. The quantity field increments and rejects zero. Product links connect the two local pages.

Bootstrap and scope

Bootstrap 5.3.3 CSS supplies the navbar, responsive product grid, product-detail columns, footer columns, and form/button styling. Custom CSS uses Flexbox and mobile-first media queries. No Bootstrap JavaScript is included.

Cart, search, and rewards are static. Other product and policy links lead to the reference site. Brand imagery, logo, and fonts are credited to Minimalist; Bootstrap is supplied with its MIT license.

Screenshot guide

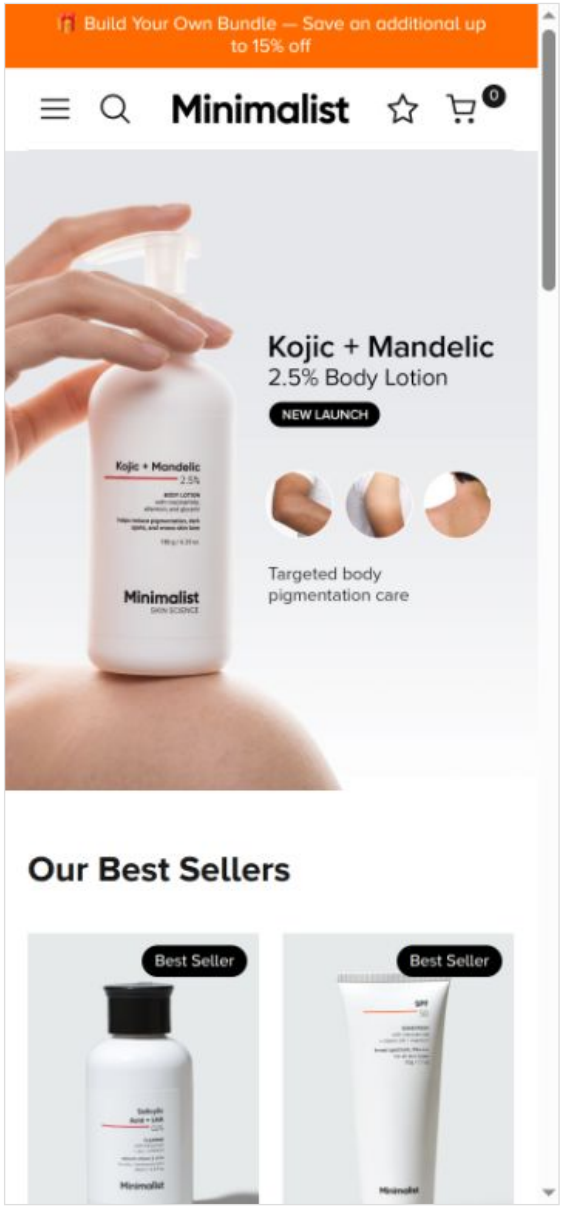

Pages 2-3: phone landing, catalogue, product, and purchase views. Pages 4-5: tablet views. Pages 6-8: desktop views and a catalogue close-up. Page 9: the complete shared footer. Original JPEGs and the verification record are included in output/screenshots/.

Viewport dimensions include browser scrollbars; captures contain the page content. All screenshots retain their original resolution for zooming.

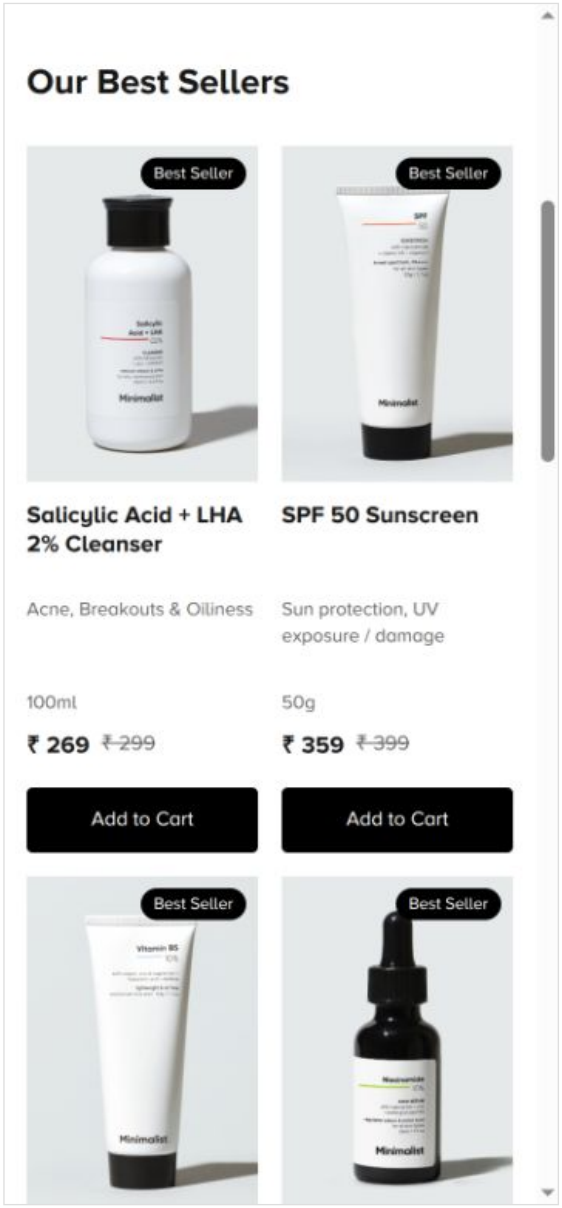

Homepage | Phone

375 x 812 px viewport | Landing and catalogue views | 2 product columns

Landing view

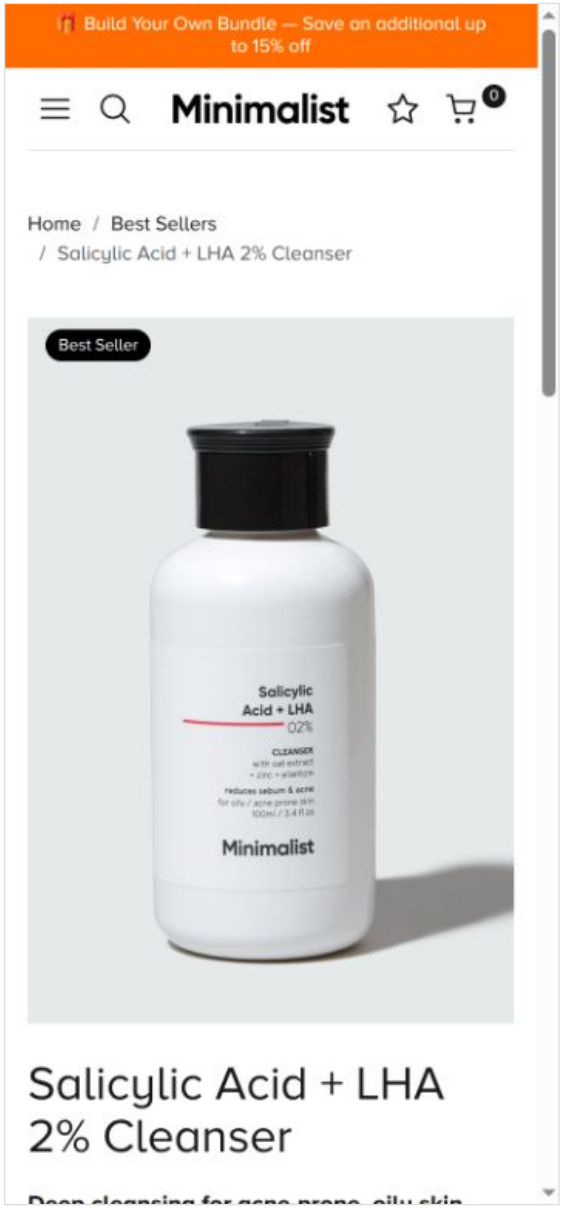

Catalogue view

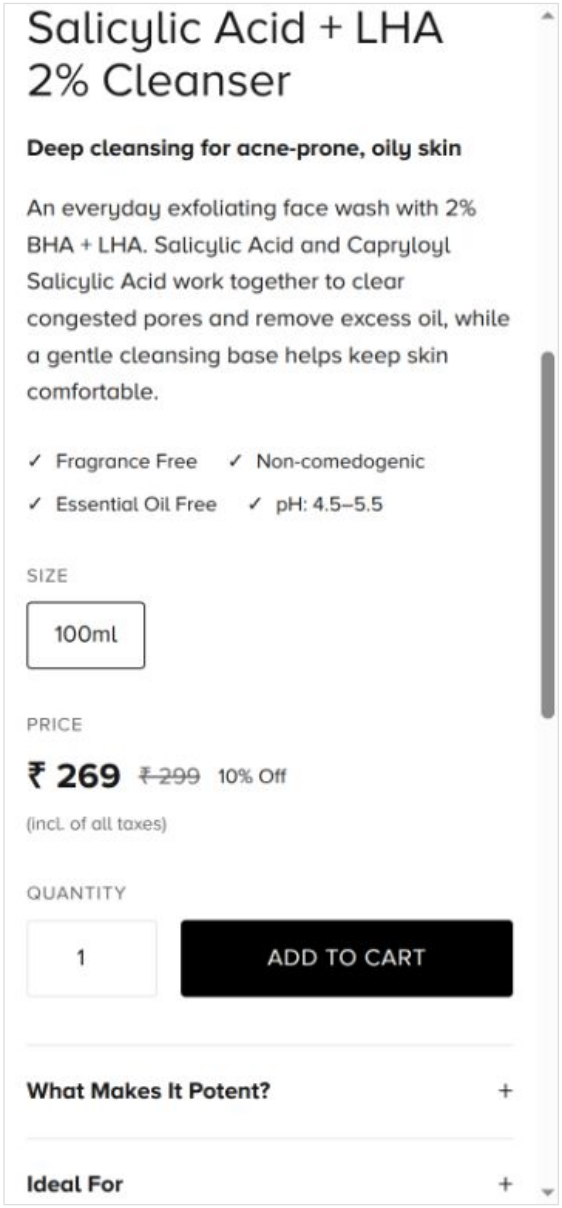

Product detail | Phone

375 x 812 px viewport | Stacked product layout and native purchase controls
